

“ I heard that ParentsCAN does free screenings for children from ages 2 months to 5 years old, so I thought I would see what that was about. I had read that all children should be screened 3 times before they turned 5, so I gave them a call. My daughter loved playing the “games” and I had fun as well. Everything is just fine, and she is right on track.

Our son graduated high school last year and is doing great! When he was in elementary school, we noticed there was a big difference between what he remembered when he **heard** something, and what he remembered when he **read** something. It didn't seem like a big deal, but we thought he should be tested. The principal at his school was not cooperating with our request. ParentsCAN informed us of our rights, and made sure we had the tools we needed to see us through the IEP process. They empowered us to succeed!

The person who answered my call at ParentsCAN responded with great kindness and made me feel that I was not alone. The Advocates at ParentsCAN have experienced some of the same challenges our family was going through. But, even with their own daily and busy lives, they are willing to extend a hand with love, humanity, understanding, patience, guidance, friendship, and acceptance. ”

Don't be afraid to ask questions!

- Do you have questions about whether your little one's development is on track?
- Is your child experiencing problems in school?
- Do you have questions about health insurance or healthcare services for your child?
- Do you want to learn how to motivate your child positively and deal with misbehavior calmly and consistently?
- Do you have a child with a diagnosis who needs services?
- Do you want your teen to be prepared for what comes after high school?

ParentsCAN

Every child's journey is different. ParentsCAN's mission is to partner with and guide parents when challenges arise in their child's education, health, behavior or development, so children can reach their full potential.

Raising a Child is Never Easy. We Can Help!

Your journey starts here.

By contacting ParentsCAN, you're taking the first step toward finding support for your family. Not every challenge turns out to be a special need. Through our free developmental screenings and parenting classes, many families served find that their child's challenge can be quickly addressed.

For those children whose challenge meets the definition of a special need, ParentsCAN is the only Family Resource Center in Napa County providing services and support **free of charge** to families of children of all ages (birth to 26) and all disabilities (physical, cognitive, behavioral and emotional).

Every child deserves to be loved as they are.

Parent-to-Parent Support

Connect one-to-one with a “veteran” parent or caregiver of an individual with the same or similar disability – someone who has “been there.”

One-on-One Consultation

Private meetings with trained Parent Advocates to help you problem solve and learn to cut through the confusion to access services faster. Learn how to communicate more effectively with professionals.

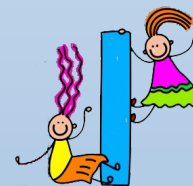

Support Groups

Confidential peer support groups, led by a trained parent of a child with a disability. Groups are generally disability specific.

Information and Referrals

Tailored information based on families' unique questions. Assistance with locating and accessing services to understand and meet your child's needs.

Trainings and Workshops

Parent Education classes on a variety of topics to help parents gain skills and knowledge, including understanding your child's behavior and implementing positive behavior interventions.

Our services are tailored based on your child's age and what they need help with – whether it's school, medical concerns, mental or behavioral challenges.
